Furniture That Fits®

Redefining Activity Tables

The “activity” in activity tables used to be defined by building blocks and colorful crayons . . . but that was then. Today, with its simple design and expanded color palette, Virco’s collection of classic and contemporary table styles provides a whole new look for a wide range of environments.

Sturdy, versatile, and supremely capable, Virco Series 4000 and 5000 tables are the new definition of activity table for today’s dynamic classrooms, dining areas, commons and conference centers.

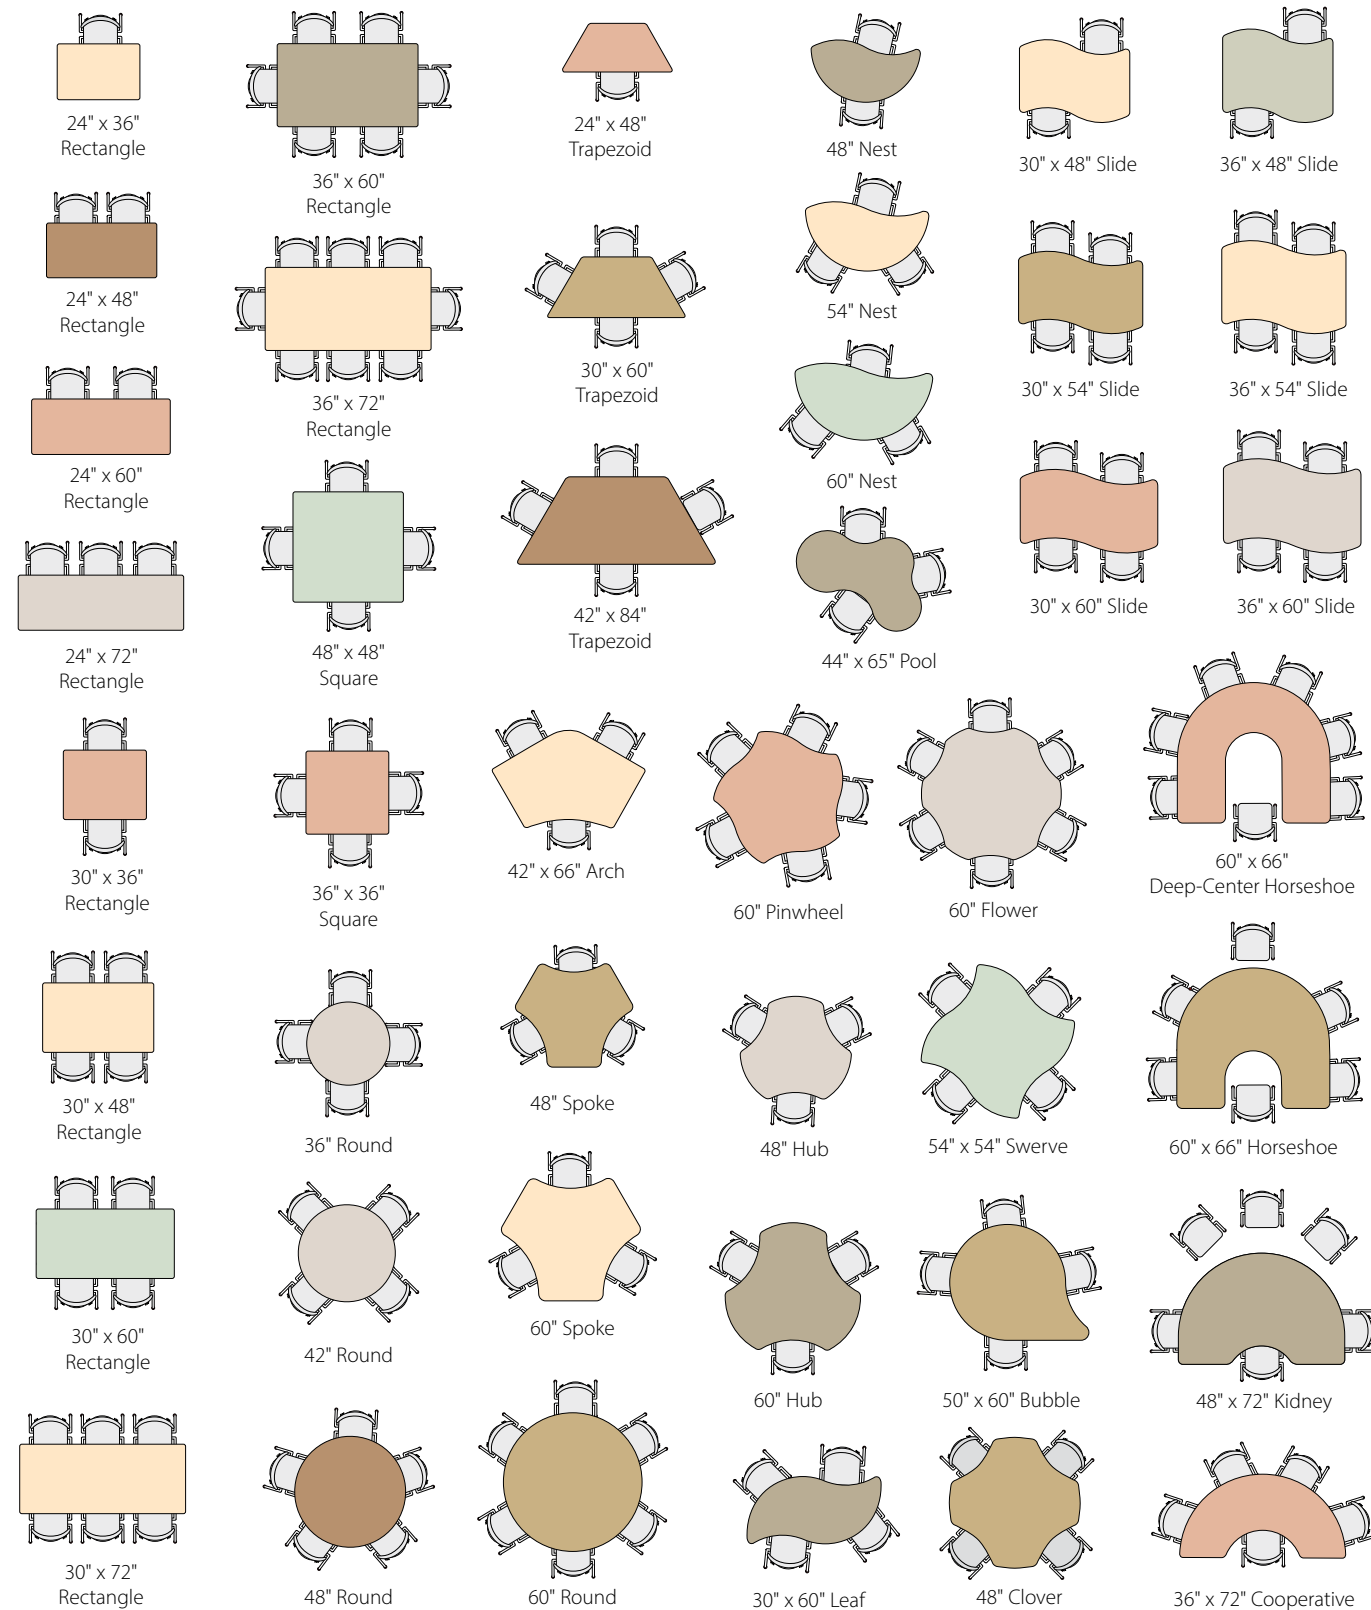

Tables That Support Your Activity

Add a book box to transform a basic table into a student desk or link them together to form larger, sturdy work surfaces. Facilitate small group interaction with complementary designs that nest together - then regroup into new patterns that reinforce the concept of creative thinking. No matter what the activity or environment, there is a Virco Activity Table that’s perfect for you.

Tables - With A Twist

The tabletop is where it all begins. With distinct shapes and a multitude of sizes, Virco tables form a solid foundation for classroom, café, workroom or seminar activities. Choose from an array of tables that can be organized in a group, split into separate areas, set at different heights or a combination of all three.

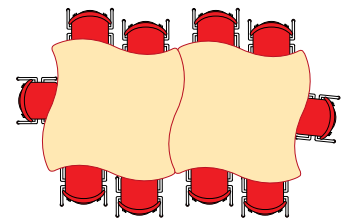

NOTE: Seating shown with 4000 Series tables. Configurations may vary depending on chair/occupant size.

Legs That Stand Out ... & Stand Up

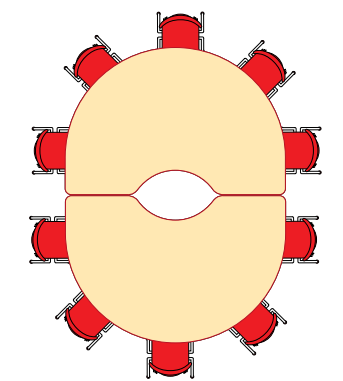

Coordinate Virco Activity Tables with your room aesthetics by selecting thin or thick profile legs. Choose 4000 Series tables for the classic look of a thin profile or make a bold statement with the 5000 Series featuring a thick profile. There are also a number of models available with stand-up height legs (see chart on page 16). Each series can be configured with fixed or adjustable legs in various heights to accommodate the ideal set-up for every size.
