

Collaborative Learning

Flexible Furniture for Evolving Spaces

Equipment for Educators™

Student-Centered Collaboration

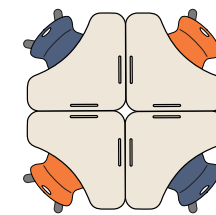

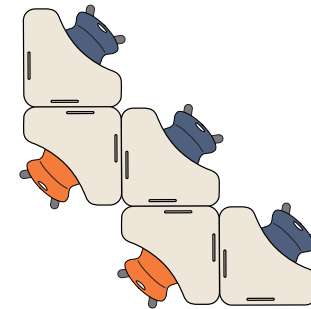

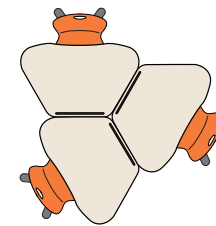

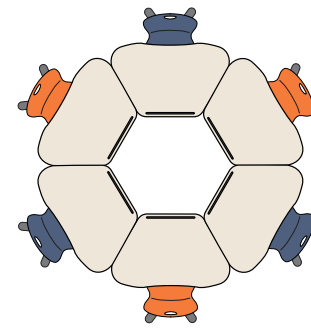

Modern learning environments are all about flexibility and collaboration – giving students and teachers the opportunity to create unique educational spaces. The best solutions are often those that enable a variety of learning and activity zones within the same classroom offering choices to accommodate all learners and learning styles.

Virco supports a collaborative learning environment with furniture that allows easy transition from lecture to hands-on practice, from group projects to independent time for reading, research or introspection.

Taking learning to the next level

Our furniture solutions support the next generation of great thinkers and provide spaces that foster collaboration, communication and innovation.

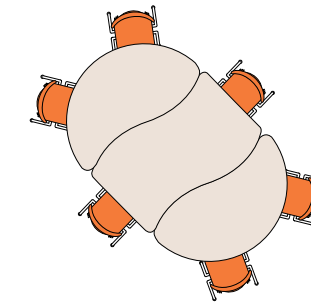

Classrooms

Virco's innovative designs allow teachers to create opportunities for interaction while still accommodating multiple learning styles throughout their classrooms. Mobile furniture can be arranged to encourage group collaboration and then easily reorganized to support individual work. Adjustable-height tables and desks are available so students can work comfortably according to their needs.

STEM Spaces

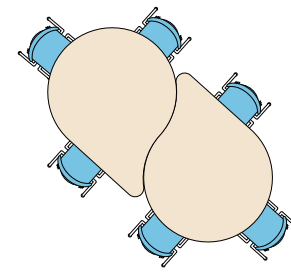

Today's active learning environments often demand a space where creativity and collaboration can thrive. Nesting tables and desks, and mobile seating delivers flexibility and versatility throughout the space. Students and teachers can easily transition and reconfigure from different classroom setups to support a truly dynamic learning environment.

Product Overview

Easily configured and able to accommodate scholars of every age, our comprehensive line of collaborative furniture is ideal for the dynamic atmosphere of the modern classroom.

Our ergonomic seating flexes and rocks, rolls and swivels - all to keep students more engaged, comfortable and productive throughout the day.

Virco student desks and classroom tables support every stage and style of learning - from independent study to collaborative group work and creative hands-on projects. With nesting shapes that can be grouped in pods then split apart for different uses, and a selection of height-adjustable legs that can handle the smallest preschooler to the tallest graduate, Virco offers flexible designs to support evolving learning environments.
